36 photos sous la surface de l'eau à couper le souffle

Recommandé par @outbrain

Dans une approche artistique, la talentueuse photographe **Susanne Stemmer** se plaît à photographier ses modèles sous l'eau pour en analyser le comportement. Avec un style changeant en fonction des photographies, l'artiste nous livre ici une sélection tout droit sortie d'un rêve, où des femmes enveloppées de draps légers semblent flotter dans une eau merveilleuse. À découvrir.
